

Hybrid 2024 ASTECH

ADVANCED SUSTAINABLE TECHNOLOGY INTERNATIONAL CONFERENCE

Conference | Town Hall | Exhibition

Fostering Research and Innovation for Sustainable
TVET Development: Pathways to Resilient Future

5th – 6th August 2024

Waterfront Hotel, Kuching Sarawak

CALL FOR PAPERS

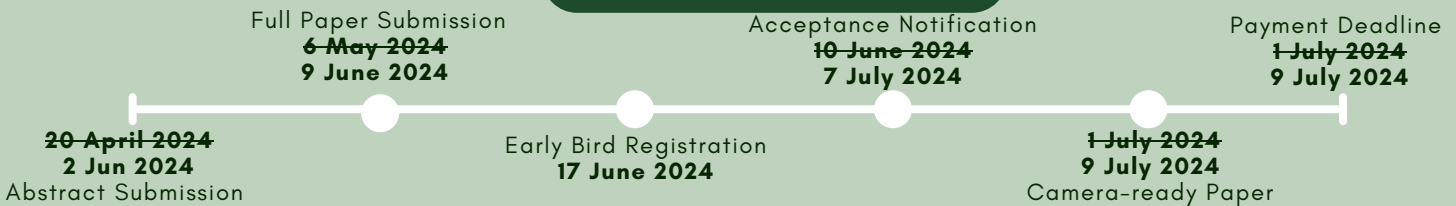

About

The Advanced Sustainable Technology International Conference 2024 (ASTECH 2024) marks the collaborative initiation between Politeknik Negeri Bandung (POLBAN), Indonesia, Politeknik Kuching Sarawak (PKS), Malaysia, SIDMA College Sarawak, Technological Association Malaysia and Association of Professional Technicians & Technologists. This distinguished assembly aspires to bring together global academicians, scholars, researchers and industry experts, creating a forum for the exchange of knowledge and groundbreaking ideas. Positioned as a catalyst, the conference cultivates a dynamic research and innovation ecosystem, encouraging participants to explore state-of-the-art technologies sustainability in engineering, technology, science, TVET, and education. Aligned with the principles of Industry Revolution 4.0. ASTECH 2024 is positioned to drive progress in these pivotal domains.

Sub - themes

- Action Research
- Agricultural Engineering
- Biomedical Engineering
- Biotechnology
- Business and Management
- Chemical Engineering
- Civil Engineering
- Communication Engineering
- Computer and Information Technology
- Computer Engineering
- Education Studies
- Electrical and Electronic Engineering
- Environmental Engineering
- Financial and Accountancy
- Green Technology
- Industrial Engineering
- Information Technology
- Mechanical Engineering
- Power and Energy Engineering
- Science and Technology
- Social Sciences
- Structural Engineering
- Technical and Vocational Education and Training (TVET)
- Tourism and Hospitality

Important Dates

REGISTER NOW

*Authors are given the opportunity to publish their manuscripts in any indexed publication/ journal of their choice, as specified by the conference committee during the event.
